

### **2007-06-16 - A PORTION OF RIMROCK TO BE CLOSED TO VEHICULAR TRAFFIC**

The Spokane City Park Board last thursday approved the closure of a portion of Rimrock Dr to vehicular traffic.

Palisades had requested the closure after 20 years of picking up garbage along this portion of Rimrock Dr that included, but not restricted to dead animals, couches, tires, stoves, condoms, needles, syringes, baby diapers, chests of drawers, bicycles, auto bodies and parts and THOUSANDS of beer and liquor bottles, fast food left overs and TV sets. The pointed focus of the request, was the astounding increase in gang graffiti that showed itself during this spring's cleanup. Not only were the rocks painted this year, but so were the ground and the trees, and the inside of the waterfall tunnel at the Big Overlook. Our desire is that this portion of Rimrock Dr will now provide a quiet, clean, safe and secure area for those who frequent the Park.

Taylor Bressler expects the gates to be in by July 4th.

Please take the time to thank the Park Board for it's courage and foresight in taking this action.
